PROJECTS

Enigma Genomics

April 2022

The website mainly focuses on providing medical services like providing health, toolkits, medical tests, genetic analysis, keep a record of medical history of patients etc. in the middle-east countries.

Skills++

June 2021

This website was created as a section within Zairza (Technical club of our college) website. The website focused on receiving online registrations for Skills++ event in our project. The candidates received assignments and online resources in their profile of the webpage and also the website also handled submissions.
